Video conferences - Don't limit your success.

Video conferences in exclusive surroundings

Tokyo in the morning, Los Angeles at noon and at home on time in the evening ... instead of spending your time at airports, why don't you simply come to us.

We offer video conference rooms with state-of-the-art technology (HD technology, multisite, ISDN or IP transmission) at central locations in professional surroundings. Our business centre is happy to help: from secretarial services to catering and the organisation of simultaneous interpreters.

Video conferences can save you time and money:

- Meetings are held irrespective of site
